With 5+ years of expertise, I specialize in website design and development using HTML, CSS, JavaScript, PHP, and WordPress. Proficient in frameworks like Bootstrap and Tailwind CSS, I prioritize user-centric solutions and stay updated with industry trends. Additionally, I integrate third-party tools and APIs such as jQuery, Ajax, MySQL, GitLab, and GitHub for enhanced functionality.

WORK EXPERIENCE

Sr. Software Engineer
Qss Technosoft Pvt. Ltd.
05/2022 - Present — *Noida*

Achievements/Tasks
- Developed web applications utilizing PHP and MySQL, successfully passing VAPT security tests to ensure robust protection against vulnerabilities.
- Integrated APIs seamlessly into web applications using JavaScript and AJAX, enhancing functionality and delivering dynamic user experiences.
- Convert Figma and XD designs into HTML and WordPress templates using HTML, CSS3, Bootstrap, jQuery, JavaScript, and PHP.
- Crafted a custom WordPress theme from scratch, tailored to client specifications and brand identity, ensuring seamless integration and optimal performance.

Frontend and WordPress Developer
Apparrant Technologies
11/2020 - 05/2022 — *Noida*

Achievements/Tasks
- Responsible for creating responsive web pages for easy reading and navigation with minimum resizing, panning, and scrolling.
- Developed an e-commerce website on a WordPress platform with a Woo-commerce plugin and Elementor page builder.
- Worked to assess competing websites with content, look, and feel.
- Effectively translated client requirements into application designs and system requirements.
